

MEMORANDUM

To: PIAA Member Senior High School Principals

From: Bradley R. Cashman, Executive Director

Subject: **MaxPreps: Provider of Official Rosters and Statistics for PIAA District and Inter-District Championships**

Date: September 15, 2009

The purpose of this memorandum is to inform each member senior high school Principal of PIAA's partnership with MaxPreps, the "Official Statistician of PIAA District and Inter-District Championships".

Beginning with the 2009-2010 school year, PIAA will utilize MaxPreps to solicit schedules, rosters, results, and statistics of member senior high schools in the sports of girls' volleyball, football, girls' and boys' basketball, baseball, and softball. The schedules, rosters, results, and statistics submitted by member senior high schools will be utilized by both District and Inter-District Championship Tournament Directors to produce souvenir programs and provide attending media with up-to-date results and statistical information on the competing schools.

To assist in facilitating the use of MaxPreps for Postseason purposes, PIAA is encouraging the use of MaxPreps' FREE service throughout the Regular Season, so that member senior high schools are fully prepared to submit the requested schedules, rosters, results, and statistics when they qualify for the Postseason in the sports of girls' volleyball, football, girls' and boys' basketball, baseball, and softball. For assistance with entering such information, we recommend that Athletic Directors and/or head coaches contact MaxPrep's Ohio and Pennsylvania Territory Co-Managers Tom Elling and Rich Vetock at either telling@maxpreps.com or rvetock@maxpreps.com, respectively.

As you report your respective male and female enrollments as of Thursday, October 1, 2009, we respectfully request that you update all of your school's information, including all requested information on your Athletic Director and school district superintendent. In addition, please update the information on ALL of your head coaches, including their respective e-mail addresses. This will provide the opportunity for PIAA to work directly with your head coaches not only for Postseason purposes, but in providing ALL head coaches sport specific in-season rules information, clarifications, and updates, when deemed appropriate.

Thank you for your assistance, cooperation, and understanding in regard to these requests.
